Ambit Energy is a retail energy provider committed to bringing value and savings to homes and businesses across the United States, Canada and Japan. It all started back in 2006 when Jere Thompson, Jr. met with Chris Chambless to discuss combining the power of direct sales with the new emerging field of energy deregulation.

A company... and friendship was born soon after.

Based in Dallas, Texas, Ambit is focused on being the finest and most-respected retail energy provider in America, offering cost-effective choices and innovative options for today's energy consumer. In 2010, Ambit Energy was named #1 Fastest-Growing Private Company in America by *Inc.* magazine, and with our 2017 expansion into Japan and 2018 expansion into Canada, we're not slowing down anytime soon.

From day one we've always focused on doing right by our customers.

In 2011 Power and Associates recognized our efforts by naming Ambit #1 for the most positive recommendations shared with friends, family and co-workers. It's no surprise the very next year the growing number of happy customers referring other customers helped us reach the 1 million active customers mark.

Treating people right also extends to employees. Ambit is proud to make the SMU/Cox Dallas 100™ for the second year in a row in 2010. Ambit has also been name in the Top 100 Places to Work by the *Dallas Morning News*. We hope you join us as a customer or consultant or volunteer to spread value across the globe.

Ambit is also focused on giving back.

is a 501(c)(3) focused on energizing the Ambit community to make a difference for those in need by fighting hunger in America. Ambit Cares is a Supporting Partner of Feeding America, the nations's largest organization dedicated to fighting domestic hunger. To date, Ambit Cares has been responsible for donating hundreds of thousands of pounds of food clocking in over three thousand hours of volunteer time.

We may have over a million customers, but we take care of them one at a time. Give us a call today and find out why so many others have already made the switch.
