- Multiple fulfillment centres strategically-located across Canada
- Free automated shipping platform with all major eCommerce integrations
- 24/7 customer support and expert advice from dedicated account managers
- Tailored shipping solutions for all business types and sizes

## Who we are?

We're a one-stop shop for shipping born in Canada. Our goal is to help business owners and online sellers like you grow, locally and globally. We offer a single place where all your shipping and fulfillment needs are met. Our longtime partnerships with carriers give you the competitive edge: exclusive shipping rates and faster delivery times. That's how we help grow "customer love" for your business.

## 1999

**The first step: Rizwan Kermalli (Riz), Founder & CEO, eShipper first came to Canada in 1989 and set up Canada Worldwide Services in 1999. The soon-to-be parent company of eShipper.**

## 2005

---

---

**A bright idea:** With little innovation taking place in the logistics industry and the big rise of the Internet, Riz seized the opportunity to turn his bright idea into reality. He launched eShipper, the first online rate-comparison shipping platform in Canada.

## **2012**

**Growing bigger:** Over the years, Riz has built strong partnerships with many carriers that allowed him to negotiate for better shipping rates. With eShipper, users get to compare these rates from major carriers in just three clicks.

## **2016**

**In 2016** - We launched some specialized services such as SmarteHome, SmarteLogix and SmarteLogistix as solutions for specific needs of our customers

## **2019**

**In 2019** - eShipper + was born - our warehousing & fulfillment division offering 100,000 sq. ft. of space to fulfill and manage inventory for customers.

## **2020**

**Never stop growing:** eShipper became the official shipping partner for the coveted ShopHERE program initiated by the City of Toronto to help small Canadian businesses go online amid the COVID-19 pandemic. Partnerships with Walmart Canada Marketplace, BigCommerce & Google Shopping followed suit.
