**Porsche 924** sensational car, preserved in its original condition. It was sold new in 1985 in Germany. Bodywork in very good condition, no rust. Never restored. The car is mechanically very well maintained. Very neat interiors, as on the first day. Historical registration in Germany, then in Poland, I am the second owner. Certified mileage. Very few problems except he needs a new owner who still cares for him and enjoys him as well.

Engine capacity 1960,00 cm3

Engine power 92,00 KW

Production from Germany in Stuttgart.

206,000 km on the odometer according to history and invoices.

New history, books, bills and CT scan.

Stainless steel exhaust + original exhaust.

Very nice from all points of view except a knock on the front fender (dent removal possible)

There is nothing to do. It drives like... a Porsche.
