Industrial Construction

Humble Construction Specializes in Industrial Building Construction in Ohio.

Whether it's a new manufacturing facility, a plant expansion, or a specialized requirement for equipment installation, we understand the complex process of industrial building construction. We work with owners, developers, financial investors, and design experts to deliver the best solutions to your industrial building construction needs in Ohio.

Our goal is to deliver valuable, high-quality projects on time. We are dedicated to doing what it takes to get the job done.

Based on the needs of your building construction project, Humble Construction can perform a variety of roles including: General Contracting, Design/Build Services, Design-Assist, Construction Management, Steel Fabrication & Erection, and Pre-Engineered Metal Buildings.
