Expert Plumbing by Experienced Technicians

Sinks drain slowly, toilets clog, and water heaters leak while you're rushing against the clock to get to work. You know how faucets can have the uncanny timing to spring a leak and drip-drop during the night. Then you have a toilet that decides to go haywire when flushing during family time, or worse, when guests arrive.

Most folks will respond to a plumbing emergency by throwing old towels at the problem and seeing if they can patch up a mounting disaster. Rocket Plumbing & Drain Cleaning has convenient locations in Chicago, Los Angeles, and Naperville (NEW!) areas. Our plumbing company understands the frustration and hassle when an emergency plumbing repair arises. Only a phone call away, our team's on standby ready to listen to your unique situation and schedule an appointment for one of our highly trained, certified plumbers to come to your assistance immediately. No messing around with cowboy contractors or sub-standard work. Quality workmanship and superior service are assured. That's the Rocket Plumbing & Drain Cleaning's Promise.

When you have a plumbing problem, Rocket Plumbing & Drain Cleaning IS rocket science. Why wait, when you can have the most technologically advanced Plumbers Chicago has to offer fixing your plumbing problem in record time and for reasonable prices. We'll take care of all your plumbing needs, whether you have a plumbing emergency or you need an online quote for an upcoming plumbing project, Rocket Plumbing & Drain Cleaning is on the way in 1!

NEW! at Rocket Plumbing

We Are Further Expanding Our Service Area

We have opened a new location to better serve Naperville and the surrounding suburbs in DuPage County. The word of mouth has gotten out to the Naperville area that when you see a Rocket Plumbing & Drain Cleaning service truck pull up to a plumbing repair, the most innovative tools and techniques will help get you quickly flowing again.

"The last few months have confirmed in my mind the next appropriate direction to take Rocket Plumbing in the next year. And that includes new commercial space tactically chosen to allow my team to get our tools and resources to our Naperville residential and commercial customers with the best response times possible. With more and more people transitioning to a permanent work-from-home status, fixing your home's flooding, failing water heaters and clogged drains are more important than ever." said Brian McMahon, owner of Rocket Plumbing.

Rocket Plumbing is fortunate to service customers for 10+ years in the areas below. Call a location near you today for superior solutions to the plumbing repairs that matter most to YOU.
