Universal Stone opened its doors in February 2003 with two employees and a small 4,000 square foot shop in Charlotte, NC. In 2008, we relocated to our current 35,000 square foot building on Rozzelles Ferry Road.

Today, we utilize all state-of-the-art equipment including CNC machines, edge machines, bridge saw, a leathering and honing machine, and a water recycling system. Our facility is totally automated to offer a more consistent product, and we cut using water filtration to eliminate silica dust in the air to ensure a safe environment for our employees. We also strive to be as “green” as possible by recycling the water we use during fabrication.

We are proud to fabricate and install high quality marble, granite, and quartz countertops for hotels, apartments, restaurants, bars, office, tract home builders, as well as homeowners.

The owner, Hemant Patel, is very hands-on and involved in the day-to-day operations. It’s common to find him working the Slab Warehouse on Saturdays, alongside his 40+ employees, including 8 install crews. Maintaining a good reputation, providing a quality product and having satisfied clients is his number one priority – and he knows that his employees are his biggest asset in achieving those.

In March 2021, we opened a brand new full-service stone and tile Design Center in Ballantyne to make it more convenient for clients in South Charlotte and South Carolina. Stop by and let our design team help you with your upcoming home, office and business projects!

Our Mission
