Texas Construction Company is a general building contractor that specializes in major residential remodels and new home construction. “Key to the company’s success,” according to company president Royce Flournoy, “is our ability to deliver what our customers want.” This brand promise has attracted Austin’s best architects and their clients, who value the company’s insights during project design and its expertise during construction. Texas Construction Company has gained both regional and national attention in publications and social media, has received numerous awards, and is regularly featured on AIA home tours.
