## Services

The world of social media and performance marketing is constantly changing, but we don't want you to have to worry about that. With speed-to-market energy and open minds, we deliver positive impact across core business areas, whether you need complete marketing assistance or an extended arm of your marketing department. Check out more below!

## About

WeThink Social is centred on connection; we connect products and services with people, we connect you with new and existing markets. We endeavour to connect two things that don't easily go hand-in-hand: creativity and data. By connecting creative content with our data, we know how to best optimise the opportunities that social media and performance marketing offer.

Born out of an established creative agency, we value the diverse set of outputs each member of our extended team provides. With the backdrop of a strong grasp of strategic business, combined with experienced international digital and social specialists, we can help get your social marketing strategy and outcomes to a whole new level.

Out of our office in Copenhagen, we adapt our Nordic approach to a vast number of contexts. Besides our local resources, we have a presence in 34 different countries through our network collaboration. From our unique foothold in the Nordic territories, our expanding international network allows us just as high a level of familiarity with the rest of Europe and the world beyond.
